FOLLOW UP TO 93-RF-11761 CONCERNING COMMENTS SUBMITTED BY THE REGULATORY AGENCIES ON THE OPERABLE UNIT 13 DRAFT COMPENDIUM OF IN-SITU RADIOLOGICAL METHODS AND APPLICATIONS AT ROCKY FLATS PLANT - NMH-595-93

EG&G Rocky Flats, Inc. and the Department of Energy, Rocky Flats Office (DOE, RFO) received comments from the Colorado Department of Health (CDH) and the Environmental Protection Agency (EPA) on the Draft Compendium of In-situ Radiological Methods and Applications. The Draft Compendium was submitted to the regulatory agencies on April 2, 1993, as a condition for approval of the Final Phase I RCRA [Resource Conservation and Recovery Act] Facilities Investigation/Remedial Investigation (RFI/RI) Work Plan for Operable Unit (OU) 13. EG&G Rocky Flats personnel have reviewed the comments and found them to be inconsistent and outside of the scope originally envisioned for this project.

A meeting was held on September 28, 1993, to clarify the objectives of this document and to eliminate confusion regarding the conflicting comments. EG&G Rocky Flats technical representatives, DOE, RFO project managers, and representatives from EPA and CDH were present at this meeting. Meeting notes prepared and forwarded by DOE, RFO to all participants.

EG&G Rocky Flats then modified the Master Task System (MTS) contract #MTS 237441GG3-Statement of Work—Implementation of the Non-Intrusive Investigations of the Phase I RFI/RI Work Plans for Rocky Flats Plant Operable Unit Nos. 8, 9, 10, 12, 13 and 14, Industrial Area Operable Units dated February 16, 1993, to support the preparation of the Compendium of In-Situ Radiological Methods and Applications at Rocky Flats Plant. The scope of work included revising the text per comments from CDH and EPA, producing the final document and a response to comments document.

The task has been broken into several subtasks as follows:

- Review document and comments
- Meet with key Rocky Flats personnel to discuss comments
- Prepare Draft Responses

- Incorporate necessary changes to existing text
- Review Draft Final
- · Incorporate changes and prepare final documents
- Word Processing

The contract modification was finally approved on November 9, 1993. Our subcontractor has met with EG&G Rocky Flats technical staff to prepare a draft response to comments. The Draft Response to Comments was received on November 12, 1993. EG&G Rocky Flats has received comments from DOE, RFO on the approaches outlined in our draft response to comments and will be incorporating those suggestions in the revision of the Final Compendium of In-situ Radiological Methods and Applications. The Draft Final Compendium is scheduled for delivery to EG&G Rocky Flats on November 24, 1993. Any minor changes will be incorporated during a concurrent review by DOE, RFO and EG&G Rocky Flats. M. F. McHugh of Remediation Project Management will assist in the preparation of the transmittal and delivery of the final document as required to meet the December 1, 1993 deadline.
